## The Grounds .....

La Chenevière is set in a park of 12 hectares, 2 of which include the walled garden with a heated outdoor pool (open from mid-May until end of September), a tennis court and bicycles. The rose gardens offer luxurious fragrances and many exotic trees make this place an ideal retreat to enjoy a peaceful rest.

Every year in May, la Chenevière organises its very own Flower Show with France's best nursery owners and artisans.

The permaculture vegetable garden of La Chenevière provides fresh herbs, fruits and vegetables to the restaurant. The home-cultivated honey served at the breakfast buffet comes directly from the hives of the chateau.

### Save the bees!

Concerned about the protection of the environment, La Chenevière wishes to actively fight for the survival of bees, which is indispensable to the survival of many other creatures. Since 2012, the hotel has started serving guests honey made from its own hives, served at the breakfast buffet and also available for purchase.
